Cir. No. 2020-21/3

Dear Parents,

We hope you and your family are doing well. The COVID19 pandemic has been extremely challenging for everyone across the world. Our Hon PM has rightly extended the lockdown till 3 May 2020.

We at school are trying our best to help maintain a semblance of normalcy for the children with online classes which started on 6th April when the new academic year was due to begin even while the lockdown was in place. We are happy to see our students engage enthusiastically with their teachers and classmates during the sessions. Our Coordinators and teachers have made commendable efforts in embracing digital technology and are working closely with the IT dept for this purpose. The school's administrative team is providing the necessary technical support to ensure that teaching - learning continues despite the lockdown. We are making all efforts to ensure that all aspects of academic work, including practicals in relevant subjects are taken care of.

We are sure you too are trying to maintain a schedule at home to make the children feel settled and less anxious about what is happening around them. We are also planning to make up for the lost time of our students after the school reopens if conditions permit.

Looking at the prevailing situation and as per the announcement of the Govt. of Gujarat, Navrachana School Sama has decided:

1. not to increase fees for the academic year 2020-21. Accordingly, the fee slip for the first quarter i.e. April to June 2020 is herewith attached. Any difference in the fees as per the latest FRC order and the fees paid by you would be adjusted in the next quarter. This calculation is held up due to COVID-19 lockdown.
2. that the first quarter fees are payable and in case you are having financial constraints due to COVID-19 lockdown, you may pay the fees monthly. In case of severe financial constraints, please send an email to the Principal at [navrachanasama@navrachana.edu.in](mailto:navrachanasama@navrachana.edu.in). We will then explore the possibility of payment of fees in instalments in your case.

The first quarter fees are payable online through the school app or in the bank. In case of any difficulty regarding payment of fees online, please send an email to the Principal at the above mentioned email address.

Your timely payment will enable the school to take care of the continued expenses. We look forward to your support and cooperation in ensuring that we can continue to provide our students with an enriching learning experience.

Praying that we will come out of this experience stronger, more resilient and with a greater sense of gratitude for what we have.

With best wishes,

Suprabha Menon  
**Principal**
